Red Boss Pty Ltd - IBM & Red Hat Partner

Who We Are

Red Boss is a specialist consultancy delivering high-value technology advisory and engineering services across Australia and New Zealand. With 35+ years of enterprise software and integration experience, we partner with organisations to address their most complex modernisation, automation, and risk mitigation challenges.

As an IBM and Red Hat Business Partner, we bring proven expertise in IBM's decision automation, process automation, AI, and cloud-native platforms, alongside deep OpenShift and middleware experience.

Core Services

End-of-Life (EOL) Support & Risk Mitigation – ensuring continuity, compliance, and resilience for critical systems.

Decision & Process Automation – leveraging IBM ODM, CP4BA, PAM, and RPA to streamline operations.

Architecture & Modernisation – guiding transformations from monolith to microservices, cloud-native, and OpenShift.

Integration & Middleware – secure, scalable, real-time integration across hybrid enterprise environments.

Advisory for CIOs & Executives – governance, compliance, and technology strategy in complex environments.

IBM & Red Hat Ecosystem Expertise

- Decision Automation: IBM ODM, IBM ODM Open Edition (RHDM), IBM PAM Open Edition (RHPAM)
- Business Automation: CP4BA, IBM BAW, IBM RPA, IBM ECM
- Applied AI: WatsonX, AI-driven automation frameworks
- Cloud & Platform Engineering: OpenShift, Kubernetes, CI/CD, automation (multi-cloud: AWS & Azure)

Why Red Boss

- 35+ years in enterprise software & integration
- Trusted by major banks, insurers, universities, and government agencies
- Proven track record in regulated and complex industries
- Independent, senior-level consulting expertise
- Partnered with IBM and Red Hat
